SUMMARY

My name is Amanuel Beyena. I graduated from Addis Ababa University with a degree in Information Systems in October 2021. I possess strong problem-solving skills, which include the ability to identify issues, analyze data, and implement effective solutions. Additionally, I have excellent verbal and written communication skills that facilitate effective collaboration with cross-functional teams.
I have over two years of experience in the software development sector. Currently, I am working at Tewos Technology Company, where I focus on develop web applications with React and Laravel frame-work , create mobile applications using the Flutter framework and desktop development using C# and VB6,

WORK EXPERIENCE

Tewos Technology| 2022 - Present(Full-Stack Developer)

- Web Development: Experienced in developing web applications using React and the Laravel Framework.
- Mobile Development: Skilled in creating mobile applications with the Flutter Framework.
- Desktop Application Development: Proficient in building desktop applications using   C# and VB6

Project

Asagrit Woreda Administration | Remote 2025 (React/Next.js, MongoDB)

I am working with the administration to develop the official website for Asagrit Woreda. This project involves using the React and Next.js frameworks for the front-end development, while MongoDB is used to manage the backend data. My role focuses on ensuring the website is both functional and user-friendly, contributing to the digital transformation of the local administration.

Notia Medium Clinic | 2024, Addis Ababa (One-Time Project) Using C# and MySQL
I developed a Patient Card Management System for Notia Clinic, enabling the management of patient records digitally instead of relying on manual, paper-based processes.
Key features of the system include:
- Patient Registration: Assigns a unique patient card to each user.
- Record Management: Allows for searching and retrieving patient records from the database.
- Reporting: Generates daily, monthly, and yearly patient reports.

TECHNICAL SKILLS

ProgrammingLanguages	Php,Java, java-script dart, C++, C#
Libraries/Frameworks	React,flutter,Laravel ,Express.js, Next.js, Git, Node.js, Tailwind, HTML5, CSS3,bootstrap
